UCSP 03	

2.2 Alternative Flows

2.2.1 *User decides to cancel the edit.*

1. User selects the option to cancel.
2. System discards the changes and returns to the trip details view.

3. Special Requirements

- User authentication and authorization are required to edit saved trips.
- The system should ensure data consistency when saving the edited trip.

4. Preconditions

- User is logged into the application.
- At least one trip has been saved in the user's profile.

5. Postconditions

- The edited trip details are saved and updated in the user's profile.

6. Extension Points

- Version control to track changes made to the trip.
- Notifications to inform the user about the successful update.
