Use-Case Specification: View Saved Trip	Date: 27/06/2024
UCSP 02	

## 2.2 Alternative Flows

### 2.2.1 *No saved trips are available.*

1. System displays a message indicating that no trips have been saved.
2. User can choose to create a new trip.

## 3. Special Requirements

- User authentication and authorization are required to view saved trips.
- The system should provide an intuitive interface to display trip details.

## 4. Preconditions

- User is logged into the application.
- At least one trip has been saved in the user's profile.

## 5. Postconditions

- User views the details of the selected trip.

## 6. Extension Points

- Integration with a map service to display the locations of the trip places.
- Option to share the trip details with others.
