Use-Case Specification: Share Trip	Date: 27/06/2024
UCSP 05	

8. System confirms that the trip has been shared successfully.

2.2 Alternative Flows

2.2.1 *User decides to cancel sharing.*

1. User selects the option to cancel.
2. System returns to the trip details view.

3. Special Requirements

- User authentication and authorization are required to share trips.
- Integration with email and social media APIs.

4. Preconditions

- User is logged into the application.
- At least one trip has been saved in the user's profile.

5. Postconditions

- The trip is shared with the specified recipients.

6. Extension Points

- Track shared trip links for analytics (e.g., number of views).
- Add a message or note to the shared trip.
