

Weekly Report

19/08/2024 – 25/08/2024

Group ID: 3

Project Name: Gogle

Prepared by: **Le Duy Anh**

Team members:

22127012 – **Le Duy Anh**

22127083 – **Cao Huu Khuong Duy**

22127219 – **Huynh Cao Tuan Kiet**

22127255 – **Ly Dinh Minh Man**

22127360 – **Vo Nguyen Phuong Quynh**

1. Achievements since last week:

STT	Description	Due Date	Responsibility	%Complete
1	Deploy Prototype to Web Frontend	18/08/2024	Ly Dinh Minh Man Vo Nguyen Phuong Quynh	100%
2	Verify Account by Email API	15/08/2024	Le Duy Anh Huynh Cao Tuan Kiet	100%
3	System Test	18/08/2024	All members (Duy host)	100%
4.	Unit Test	18/08/2024	All members (Duy host)	100%

a. Deploy Prototype to Web Frontend:

- Successfully deployed the updated UI prototype to the web frontend.
- Addressed and resolved any deployment issues.

b. Verify Account by Email API:

- Implemented and tested the account verification process using the email API.
- Ensured the verification process was secure and reliable.

c. System Test:

- Conducted thorough system-wide testing to verify that all components integrated seamlessly.
- Identified and resolved integration issues.

d. Unit Test:

- Performed unit testing on individual components.
- Achieved high test coverage, reducing the likelihood of defects.

2. Issues and impacts:

a. Deploy Prototype to Web Frontend

- **Issue:** Ensuring the UI prototype is properly deployed and functional on the web frontend.
- **Impact:** Successful deployment allows for real-world user interaction and feedback.

b. Verify Account by Email API

- **Issue:** Implementing a secure and reliable account verification process.
- **Impact:** Improved user security and account management.

c. System Test

- **Issue:** Testing the entire system to ensure all components work together.
- **Impact:** Identified and resolved integration issues, leading to a stable application.

d. Unit Test

- **Issue:** Testing individual components to ensure each functions correctly.
- **Impact:** High-quality, well-tested components contribute to system reliability.

3. Next week goal:

This coming week, we will build upon the progress made this week by focusing on the following key areas:

Development

- **Fix Bugs Found Through Testing:** Address and resolve any bugs identified during system and unit testing. Ensure that all issues are fixed to maintain application stability.
- **Deploy Prototype to Web Frontend:** Further develop and refine the frontend based on feedback and testing results. Implement additional features and enhancements as needed.

Project Management

- **Prepare for Final Review:** Conduct a final review of the project to ensure all objectives and requirements are met. Prepare documentation and materials for project completion and presentation.

By successfully completing these tasks, we will advance the project significantly and lay a solid foundation for future development.

STT	Description	Due Date	Responsibility
1	Fix Bugs Found Through Testing	23/08/2024	Le Duy Anh Huynh Cao Tuan Kiet Cao Huu Khuong Duy
2	Continue Frontend Development	25/08/2024	Ly Dinh Minh Man
3	Prepare for Final Review	25/08/2024	Vo Nguyen Phuong Quynh
